REDCLIFF, ALBERTA, THURSDAY, AUGUST 7, 1919

Number 32

LOCAL LOAN CO. PUTS THROUGH BIG FARM LOAN

Is For Half a Million Dollars For
 Large Alberta Farmer—Stoner
 and Edgett, of this Town
 —Put Through the Deal.

Probably the largest strictly farm bond issue ever made in Alberta was consummated last week when the Noble Foundation, Limited, of Kelowna, delivered its bonds for \$500,000 to Henry Cerone, of Seattle. Papers in the transaction were filed at Calgary. The bond issue covers approximately 30,000 acres of land owned by the Noble Foundation, Limited, and near Nobleford, and operated by them as a grain growing farm. It is this farm which holds the world's production record of wheat, being 54 bushels to the acre for a unit of 1,000 acres, made in 1918.

The closing of the bond issue for Mr. Carstens was made by Eugene B. Farver, vice-president of Murphy, Farver & company, investment bankers, of Spokane, Wash.

This bond issue was submitted to Mr. Carstens by the good for this client firm of Stoner & Edgett, Limited, who conduct a business of loans and insurance here, and the great success of this issue was due almost entirely to R. B. Stoner of this town, who transacted the business for this local firm.

We are also relieved to inform that this same local firm has been successful in putting through another loan of \$50,000 for a large ranching firm in southern Alberta.

In speaking of the Noble loan Mr. Farver said: "In spite of the short crop this year, I find that the Noble Foundation will have considerable grain on its farm and its crop production should be at least \$100,000 this year. Of this amount about half the wheat crop, which has stood the dry weather, and which is a very profitable crop, for, with any sort of rain it will give excellent fall and spring pastures. They are also cutting considerable wheat as well as sufficient oats and flax for seed, which is good for the year. This is a tribute and the reward of excellent farming, and I wish that many farmers in the United States, and I presume that there are many in Alberta, could profit by a visit to the Noble Foundation farms and see the modern methods of agriculture employed there."

Canada Should Take Interest in India

The declaration of the parliamentary under secretary of state to the colonies has stimulated the interest which was aroused by the article of H. J. in the Times on the British-American federation. During the debate at the colonial office on Wednesday night of last week the under secretary agreed that a progressive policy in the development of the empire should rest not only on the shoulders of the United Kingdom, but must be a common trust in the self government of the Dominions.

He hoped the time was rapidly approaching when Canada would take an increasing interest in the development not only of the West Indies, but every part of the empire. This declaration has become more widely circulated and has developed into a most important topic of empire reconstruction. Any action the under secretary, however, must originate with the expression from the people of the countries concerned. In such event the declaration of the under secretary gives the impression that the views prevalent in Canada, Newfoundland and the West Indies will govern the imperial attitude.

GERMAN THREATEN TO BURN AIRPLANES.

Germans in charge of 24 Zeppelins near Berlin, have threatened to burn them rather than deliver them to the Allies as required by the peace terms, according to information obtained by the American army authorities. The Zeppelins are of 25 tons capacity and can fly from Berlin to the United States, according to German sources. Several of them are built to carry 40 persons.

An Appeal to the Women of Redcliff

Yes, we are going to beg again. We acknowledge it. But, it's for your own husband, son or brother, not ourselves. Don't you often pity them with nothing to do in their free time, especially in winter, except walk down town and back?

We are trying to value money to open a gymnasium here and plant some trees in the park. If you'll help and get your best friend, we can do it. Every old Red cross sister will be canvassed by two of our members who will request each woman to contribute two articles of fancy work for a sale, the proceeds to go toward these two things. All together now. Let's see what we can do for our men and boys.

This undertaking is under the auspices of the Women's Club Improvement Society.

If you are not a member of this organization yet, join now.

How the Elevators Robbed Dakota Farmers

The state of North Dakota has capitulated. There is a place of transfer of power has taken place, and the state is at the present time ruled by the Non-Partisan League, which is a political party of the agriculturists. The movement which has now fructuated, started in 1917 when the farmers became suspicious that the state was being run by the elevator companies. An investigation commission was appointed and what they discovered is best shown by the following tabulated results:

Grade	Bushels
No. 1 Northern	79,714.40
No. 2 Northern	141,455.10
No. 3 Northern	272,047.20
No. 4 Northern	291,267.20
No grade	116,021.10
Rejected	59,742.00

Grade	Bushels
No. 1 Northern	196,288.50
No. 2 Northern	467,764.00
No. 3 Northern	215,458.20
No. 4 Northern	None
No grade	None

The above table is one which he who runs may read. It is a story of wholesale stealing by the elevator companies. The matter of the grading of wheat by the elevators. When nearly a million more bushels of No. 1 Northern have been shipped out than were taken in, as denoted by the elevator receipts, the game played by the elevator companies with the farmers as victims, becomes evident. The farmers, as a consequence, rose in their wrath to meet the elevator politicians and to take things into their own hands.

The Non-Partisan League was formed and its victory was so great that it controlled the whole state. It has instituted a drastic form of legislation to what has hitherto been the fashion in North Dakota. There is going to be a state bank for the purpose of financing the state-owned industries. A \$5,000,000 bond issue is to be floated to buy or build grain elevators and flour mills. All mortgages on North Dakota farms held outside the state are to be cancelled. The state bank is to lend on the state, and a ten percent rate is to be made for that purpose. There are to be new tax laws. In fact the farmers of North Dakota are now the law of the land.

The results of the movement in the state over the border will be watched with intense interest by the agriculturists, and particularly by the farmers of Alberta, who are forming their own independent political association.

METRIC SYSTEM WOULD SAVE MILLIONS

America's greatest educators are supporting the move made by the United Trade Club of San Francisco to secure the adoption of metric units of weight and measure by Britain and the United States. "The adoption of the metric system by the United States would facilitate teaching of mathematics and applied science," says President Emeritus Charles W. Eliot of Harvard University.

Information Regarding Fall Rye Seed

When it was announced that the provincial government contemplated furnishing farmers of the province with fall rye seed, in an endeavor to solve the food problem, the president of the Redcliff and District Welfare Association wrote to the Department of Agriculture for full particulars regarding the matter. We repeat the answer received by the president and as it explains itself, no further comment is necessary here.

Farmers who are desirous of taking advantage of this offer should make it a point to attend to the matter as soon as possible. To date we have no information as to when the government official will be in this district but as soon as this is to hand we will make it known through these columns. In the meantime farmers might call at the Review office when in town and we will be pleased to keep them posted on the latest developments. The following is a copy of the letter received from the Department of Agriculture:

Edmonton, Aug. 1, 1919. Mr. Ed. L. Stone, Redcliff, Alberta.
 Dear Sir:—In reply to your letter of July 25 may say that this Department will in a short time send you a quantity of the fall rye seed and will have instructions as to the regulations.

At the present time we understand that this Department will supply 25 bushels of rye to each individual farmer and order sent to this Department can only be filled by the order in the unorganized districts who hold patent to their farms. Homeowners should apply to the nearest Department of Agriculture and those in the organized municipalities to the secretary of their municipal district.

Yours truly,
 J. M. CLARK,
 Assistant Sup.

Reduced Fares For Alberta Farmers

On Tuesday, August 5, special arrangements were made to provide cheap or free transportation to farmers who find it necessary to leave their homes to procure work. A decision on this effect has been arrived at from the realization that farmers in the dried-up and burnt-out areas will have to work out for wages this winter.

Arrangements with the transportation for home field farmers to the harvest fields of Manitoba and Saskatchewan at a one cent per mile rate. This transportation will be furnished on certificates issued by J. M. Clark, superintendent of the Alberta government labor bureau, August 5 and 6.

When a farmer cannot pay his own transportation he will be required to furnish a certificate signed by the manager of a bank or section of the municipality to the effect that he is unable to provide funds for such transportation, and free tickets will be issued.

Certificates can be obtained at Calgary, Lethbridge, Medicine Hat, Warner, Pincher Creek, Hain Island, Alderson and Cammargue on and after August 5 up to August 20.

Veterans Would Expel Hitlerites

The Manitoba Great War Veterans Association is to be for the purpose of Hitlerites from the province. This was the statement of Warwick A. Angus, secretary of the provincial command, when asked if there had been any developments in connection with telegrams sent to Premier Borden Saturday protesting against the alleged removal of Hitlerite immigrants from the United States.

"Commenting on the statement made Saturday by Theo. Gosley, acting commander of the United States Great War Veterans, Angus said the G. W. V. A. did not care whether this was the case or not. The association regarded the Hitlerites as undesirable settlers and demanded that no matter when they came to this province they should be deported and that the land made available for soldier settlement. The association also demanded that investigations be made of the kind of work of ascertaining who was responsible for bringing the Hitlerites in in the first place to Ellis, Man.

CHANGE IN THE MANAGEMENT OF ROLLING MILL

E. Shand Has Been Appointed
 Manager of Whole Plant—Has
 Had Wide Experience—Steel
 Plant to Operate Again Sunday.

During the past week some changes have taken place in the personal of the management of the Rolling Mill here. E. Shand, who has been in charge of the steel plant department of the mill, has been made general manager of the whole works, and we understand of the finishing mill, has been transferred to some other branch of the company's works.

We are assured that several changes are being considered in the workings around the plant, while, when completed, will add to the efficiency and convenience of the work. The steel plant has been working out the steel plant has been closed down but this will be opened up again in full force on Sunday evening.

Mr. Shand, the new manager, has a wide experience in the steel industry. He has been in charge of this class of work for the past fifteen years. During that time he has been in charge of the largest steel plant in Canada, among which are the Canadian Steel & Foundry Company, Montreal and Welland. In the past he has been in a mechanical and worked his way up until he finally became superintendent, which position he held for five years.

Since that time he has devoted his time to the superintending of the building of steel plants and installing the necessary machinery and in this line he has had a wide experience in all parts of Canada.

In his experience Mr. Shand should be a capable manager of the plant here, and as the steel market is rapidly becoming more steady and prices are advancing, together with the assurance that this plant is receiving all kinds of inquiries for materials, we have every assurance that a busy season is ahead for this industry. At present about 150 men are employed at the plant and when the contemplated enlargements are completed this number will be considerably increased.

We were also informed by head officials of the company that it is their intention to have the mill under management to Redcliff as soon as possible.

Rains Have Improved Condition in Alberta

Recent rains throughout the province have been of incalculable benefit to the farmers in the matter of feed for the winter, according to reports received from almost every corner of the province, and there will be few farmers who will be in need of any great assistance. The nature of all turning green again since the late rains, and there is a general optimism that the winter will be good until late in the fall. In a number of cases farmers are moving fall rye for pasture, which will greatly assist in the matter of feed.

In the northern section of the province reports indicate that there will be plenty of feed and in some cases there will be a surplus. The nature of the rains, and there is every prospect that the number of farmers who will be able to feed will be comparatively small, and there is little need to worry.

Criticizes Gov't For Fixing Grain Prices

Bitter criticism is still heard in some circles on the decision of the government to fix the initial price of the 1919 wheat crop at \$1.75. Grain firms at Winnipeg and the Grain Exchange are receiving calls and telegrams from farmers regarding the new order, but in the absence of details, grain men, farmers and millers all alike are in the dark.

Clay Products to Start Operations

Arrangements are now well made for the opening up for business of another of Redcliff's industries in the near future. This time it is the brick plant in conjunction with the Clay Products industry here. In the last few weeks this plant has been taken over by a new company, as the result of which it is now in a position to start operations. The plant is owned by the late Norman Ross, who was secretary for the Drummond Manufacturing Company, and one of the plant, helms of the Clay Products Company.

Already men are engaged getting the plant in shape to commence operation and it is expected that they will be making bricks early next week, providing they can get the necessary fuel for doing so. To commence with this plant will employ from fifteen to twenty men and as there is a present growing demand for all classes of brick a busy season is anticipated and it is expected that the staff will have to be increased from time to time. We are informed that the staff for the opening operation is not yet complete, but there is still an opening for the employment of ten or dozen men.

Cattle and Hay Outfits go Free

C. E. Bain, Dominion market representative at the Edmonton stockyards, had a letter from the department of agriculture announcing the acceptance by the government of the work of the provincial government, for the movement of hay and livestock to the north. Some question has arisen as to the amount of the fee in the shipment of stock, which bears a share of the cost, thus making a third for each party to the agreement. On the urgent request of the provincial government, however, the fee has been waived and the fee will be paid by the government.

The relief tariff will therefore be effective at once. It will provide the farmer with absolutely free transportation for his hay and livestock both ways and for his outfit on the return trip. His situation is being given accordingly in railway agents on the three lines which will be footed by the two governments.

Many Colonial Soldiers Are Still Missing

Records officers in London of the post office are now making their last grand tally and trying to trace every man who has appeared on their books. Up to the present some 100,000 of them are accounted for, but all these men are considered to be definitely lost. Some have gone on furlough and accepted work without the formality of communicating with the authorities; others have married and settled down in preference to returning to camp and telling the colony others are restless men, many of whom will be back.

The South Africans have but 26 absences, every other man of the 26,000 has been accounted for. The New Zealanders are 300 short. Most of the missing are Australians and Canadians and it will take a long time for the military police to round them up and check them into concentration camps. Some of the dominion governments are publishing advertisements warning their men to report by a certain date unless they wish to forfeit their gratuity and free passage home.

Financial Concerns Will be Lenient

Banks and companies which lend money to Alberta farmers are giving little consideration to the plight of the people in the drought area and have none on record is letters to Secretary of Agriculture, of the United Farmers of Alberta, as being ready to extend generous treatment to the farmers in the drought area. The United Farmers of Alberta, the Bank of Montreal, the Bank of Canada, the Bank of Commerce, the Bank of Nova Scotia, and the Canada Life Assurance Company have written to the United Farmers of Alberta to this effect.

CONVENTION REVEALS NEED FOR IRRIGATION

Many Resolutions Passed Requesting Association's Assistance to Get Government Help.

Stating evidence of the reality of the drought brought out at the sessions of the western Canada Irrigation convention held in Medicine Hat this week, whilst resolutions requesting the association's assistance in helping the irrigation demands forcibly before the governments were received. Magrath asks the convention to use their influence with the Canadian people to obtain a partial water right for their district during the month when there is a surplus of water going to the waste; Reno, Sask., asks support in urging the Dominion government to construct a canal in the Cypress Lake district; and the Canadian people to obtain a partial water right for their district during the month when there is a surplus of water going to the waste; Reno, Sask., asks support in urging the Dominion government to construct a canal in the Cypress Lake district; and the Canadian people to obtain a partial water right for their district during the month when there is a surplus of water going to the waste.

During the discussion following the economic plan of irrigation, Fred Davis, a farmer in the irrigation district, stated that he had never used irrigation during the nine years he has been on his farm until this year, and as a result he will have, if no disaster occurs, a surplus of 10 bushels of grain as against from 4 to 5 bushels he had last year. He is an enthusiast now for the use of irrigation, stating that he may be willing to give assistance and co-operation.

French Children Decorate Graves

A "feast of national gratitude" was held last Sunday throughout France and in the reconstructed province of Alsace. The occasion was the commemoration of great heroic messages from President Poincaré, Premier Clemenceau and Marshal Foch, who were the victors of a great victory. In numerous cities school children visited the cemeteries to place wreaths on the graves of the fallen soldiers of France and her allies who had their lives in the war, and everywhere homes were paid to the men who had fought to save the nation.

Alberta Ranchers Refuse to Sell

Unforeseen developments may cause the collapse of the Manitoba government's scheme to buy the ranches in the arid areas of Alberta for Manitoba. Alberta stock raisers so far have declined to sell to the government agencies. They are holding out for better feed conditions and appear to be placing faith in the government's promise to provide hay. This information was contained in a telegram which Hon. Valentine Winkler, minister of agriculture for Manitoba received from Medicine Hat Tuesday.

RUSSIAN STRIKE AID LOSING POPULATION

Petrograd's population, which was more than two million in 1912, has now fallen to 1,000,000, according to documents and newspapers taken from Bolshevik prisoners at Omsk. Moscow's population was shown to have diminished 40 per cent. Statistics on production showed that the output of workers of the Moscow metal industry, which had only 182,000 members before the Bolshevik result, now has only 60,000. Working men of the Putiloff Works, according to newspapers, who received 90,000 roubles in wages in 1918, now receive only 15,000 roubles worth of metal for last six months.

MANITOBA WHEAT CROP 45,000,000 BUSHELS

Manitoba will harvest approximately 45,000,000 bushels of wheat this year, according to an estimate given out by Hon. Valentine Winkler, provincial minister of agriculture. The estimate is based on a yield will be 15 bushels to the acre. The wheat acreage of the province is said to be nearly 3,000,000 acres.

VOTERS' LISTS.

Some time ago we drew to the attention of our readers the change in the law regarding the compiling of voter lists. According to the law the wife, son or daughter of every man who owns property in town, and the husband, son or daughter of every woman who owns property in town, is entitled to vote in municipal elections. Provided first that they are all of the full age of twenty-one years, and secondly, that their names are on the voters' list. It is to this last provision that we wish to call the attention of our readers more particularly at this time.

According to the law as it now stands every man or woman who owns property must make application to the secretary-treasurer to have the names of those in their family who are entitled to vote as above stated, put on the voters' list. The secretary-treasurer is not supposed to do this unless personal application is made by the one concerned. Another thing that should be remembered is that this must be done before August 31st of each year. This being the case it can readily be seen that it must be attended to this month.

SHOULD COMPLETE LINE.

Owing to labor troubles among coal miners and operators there is no doubt now that the fuel question will be a serious one this winter. For more than two months now western miners have been off the job and a settlement is not yet in sight. The result is obvious, and although natural gas solves the problem so far as this town is concerned, and our local coal mine can take care of farmers of the immediate district, yet the outlook is none too bright for districts less fortunately situated.

Although crop conditions in the country through which the branch line of the C.N.R., between here and Hanna passes, are not such as would warrant the rushing to completion of this line yet the serious outlook for the fuel situation should be sufficient incentive to get this line in operation as quickly as possible. There is no doubt that a line running north and south from the coal mines of this district would assist materially in solving the fuel problem over a large area of Alberta this coming winter.

LIBERAL LEADERSHIP

At the moment it is hard to say who the next leader of the Liberal party for Canada will be, although the great Liberal convention has been in session now for three days. At the opening of the convention at least a dozen names were mentioned as possible candidates for the position but latest reports would indicate that this number has dwindled down now to four, with all possibilities of the choice coming to the west eliminated.

The four who allowed their names to go on the nomination paper are: Hon. W. B. Fielding, Hon. Geo. P. Graham, Hon. McKenzie King and D. D. McKenzie. All things being equal the chances for the selection of a leader would stand about in the order in which the men are mentioned above. But all things are not equal. Besides the many differ-

ent elements and factions, with their widely different opinions on various of great importance to the country as a whole, there are the strict Laurier Liberals who appear to be determined to punish those of the rank and file in the party who supported Union government in the last general election.

Judging from experience, alacrity and past record on the much discussed tariff question, Hon. W. S. Fielding would be the logical choice for leader, but here is where the Laurier Liberals appear to be getting in their work. Although Fielding never was a whole hearted Unionist, he accepted a Unionist nomination and election and for this he must be punished.

Quebec, which controls about one quarter of the delegates present, appears to be strong on the punishment business, and although there is no one on the nomination paper from that province they appear to be in favor of supporting Graham as a reward for his support of the Lapointe bi-lingual resolution, when it came up in the house. The other eastern provinces appear to be about equally divided on these two candidates but in the west there is an element led by Hon. Frank Oliver which is working hard for McKenzie King, while the Cross following is supporting Graham. D. D. McKenzie has his admirers but his nomination appears to be more of a complimentary one than otherwise.

Under these circumstances it is hard to pick the winner. Much will depend on who drops out after the first round of balloting. If there is any truth in the report that Graham is losing ground on account of his intimacy with Clifford Sifton, the chances are that McKenzie King will be the choice of the convention.

NOTICE TO WOMEN

Some time ago in these columns we suggested that after the war was over steps should be taken to utilize the complete organization established by the Red Cross Society, and make it permanent in order that other much needed work might be accomplished in town and district. We are glad to notice that the Civil Improvement League gives evidence of becoming a live organization and intends following along lines already mentioned. Already this organization has some very worthy schemes in mind and are making an effort to carry them through to a successful issue. To make these the success they should be, however, the officers and members will need the same assistance and co-operation on the part of our citizens as characterized the Red Cross work.

With the hope of getting things well under way a meeting is to be held at the home of Mrs. R. R. Stone next Wednesday afternoon, and every woman in town who can possibly do so, whether she is at present a member of the league or not, is urged to attend this meeting.

Don't overlook this meeting. Make a note of it now and make up your mind that you are going to be there rain or shine. Two important conventions in which Redcliff should be vitally interested are being held in Alberta this month. One was the irrigation convention held in Medicine Hat and Romaneau and the other the Industrial Congress held at Lethbridge, Calgary and Edmonton. Notwithstanding the fact that irrigation and industries are two of the outstanding needs in this town and district the fact that they have not been seen fit to have a representative at either of these conventions.

From all accounts the Roumanians will not be satisfied till they book-seat in Budapest. It may be a Hungry trip for

them but they were fed up on Turkey anyway.

"JOHN BULL" UNCLE SAM"

A good deal of misunderstanding between Britons and Americans nowadays is caused by smart journalists on both sides of the Atlantic, journalists who edify their readers with sensational "attacks" on Uncle Sam and John Bull. Over here we have Mr. Brisbane, the Hearst columnist, whose spunky stuff is very popular, and who manages to sandwich in not a little illuminating fact with lots of fiction and sparkling fluff dub.

Brisbane spreads a flimsy drizzle of fairness over his malicious comment on Britain by admitting her enterprise, progressiveness, foresightfulness and business astuteness. But his policy of vindictiveness and bitter hostility never wavers under this coating of hypocritical compliment.

In the Old Land they have men like Bernard Shaw, the pacifist, traitor and professional cynic and Horatio Bottomley, M. P., the rabid patriot and Little Englander. Shaw's influence has waned since the war started, naturally enough. His admirers dwindled when they discovered that his basso profundo democracy on paper turned to venal squeals and "thumbs up" when the Hun knocked at the gate. The war swept the British Empire with a wave of old time faith and valor. There has been little room for the petty spite and philosophy of Shaw since August, 1914.

Bottomley, M. P., in a recent diatribe, accuses America of ambition to seize world-trade with Europe helpless and disorganized. He lambastes and belittles Mr. Wilson, and pours contempt on the League of Nations. "America," he says, "is stepping into Germany's shoes in more ways than one. It is no exaggeration to say that sentiments existing between them today are less cordial than at any time, since the late President Cleveland tried to make bad blood between us."

This is palpable slander. It is unworthy of the editor of "John Bull," who has done excellent work for Anglo-Saxon unity in the past. It does not reflect public opinion in either hemisphere. On the contrary, it falsifies the situation. British-American goodwill has been growing by leaps and bounds since April 1917. The Empire and Republic were never so friendly and fraternal as at this minute. The English-speaking Union is the most flourishing racial organization in the world today.

Hotheads on either side are genuine trouble-makers in these reconstructive times. Brisbane's mere calculating and less fanatical than Bottomley, will do less harm than the English gull pusher.

According to the cost of living commission there has been no warrant for the increased cost of clothing in Canada. Notwithstanding this we have not noticed that the price is coming down any. So what's the story on all this investigation business unless some benefit is to be derived from it. These commissions cost money and the people who are soaked for the clothes they wear are also soaked for the commissioners' salaries and expenses. God help the people. They get it going and coming these days.

Public men appear to experience little difficulty in devising means of getting themselves into the limelight. W. F. Nickle, M. P. for Regina, has just discovered that he was elected as a Unionist and as such was only intended to hold office till peace was declared. As a result Mr. Nickle has resigned. The Canadian parliament has not yet passed on the peace treaty, and

besides Canada is far from being at peace either with herself or with the world. So that Mr. Nickle's move is as uncalculated as it is spectacular.

It was just five years ago last Monday that Britain entered the Great War. At that time it was predicted by some that the Kaiser would eat his dinner on the Christmas following in Paris. Kitchener said he did not know how far the war would last but so far as the Allies were concerned, it would only commence about three years hence. How miserably the Kaiser failed and how wisely Kitchener predicted are now matters of history.

Arthur Henderson, British labor leader, predicts the total annihilation of civilization in Europe before winter sets in. Such an announcement at this time appears rather strange, as most people in these parts had the idea that civilization had been annihilated in most parts of Europe about five years ago this month.

Field Marshal Haig and Vice Admiral Beatty, two men who had much to do with British successes in the war, are to be made earls and will receive cash grants from the country of half a million each. While there will undoubtedly be any protest against this recognition for services rendered, the men who carried out their orders should not be overlooked.

CHURCH NOTICES

RESPIRITARIAN CHURCH
Rev. Wm. Shearer, D. D., pastor, Residences next door to the church. Services as usual next Sunday morning and evening at 11 a. m. and 8:30 p. m.
Sunday school at usual at 12:15.

CHURCH OF THE BETHLEHEM
Sunday school at 10 a. m.
Preaching at 11 a. m. and 7:30 p. m.

Rev. David Hollinger, pastor.

CATHOLIC CHURCH
Until further notice services will be held in Crow's hall on the fourth Sunday of each month.

CHURCH OF ENGLAND
Eighty Sunday after Trinity-Holy communion at 8 a. m.
Sunday School, 12:15 p. m.
Evening Prayer, 7:30 p. m.
Evening prayer at Alderson 8:30 p. m.

Parliament to Meet
On September 1st

Parliament meets on Monday, Sept. 1st. On the same day the Prince of Wales will lay the corner stone of the tower of the new parliament buildings. The session is not expected to last more than four or five weeks. Ratification of the peace treaty will be the principal business. Since progress on July 7, there has been considerable correspondence with the Imperial government in regard to the necessity of early ratification of the treaty. Already a bill to approve ratification has passed both houses at Westminster and received the royal assent. The ratification of the peace treaty, however, is a formal step, awaiting the approval of the overseas parliaments. Throughout the correspondence, it is authoritatively stated, the Dominion government has firmly taken the stand that before the formal deposit of the British ratification at Paris, the treaty must first be submitted to the Canadian parliament. A recent communication from the Imperial government on the subject emphasizes the urgency. For this reason parliament has been summoned to meet.

U. S. WILL FINISH THE FOOD PROBLEMS.

The United States government has decided on a number of measures dealing with the problem of food and food hoarders, in an effort to reduce the cost of living.

Agents of the department of justice were ordered to seek out all hoarders of necessities and profiteers throughout the country. They are to be prosecuted under the Food Control Act.

ROUMANIAN ACTION MAY OVERTHROW HUNGARY.

The Roumanians have served an ultimatum, it is said, make demands far in excess of the armistice terms, terms, and give the Hungarians un-

tilt. Roumanians will not accept the terms. It is greatly feared that the Roumanian action will result in the overthrow of the new Hungarian government.

London newspapers make a feature of a statement printed in the Times, to the effect that it was understood the British authorities were convinced that the present strikes were part of a conspiracy designed to overthrow Great Britain's system of government.

LODGE DIRECTORY

SONS OF ENGLAND BENEFIT SOCIETY.

Czech, Slovak and British troops are on their way to Banquet for the purpose of terrorizing in the section of the city with the Roumanians, according to a dispatch from the Roumanian capital. French troops will also take part in the occupation of the city.

Four persons known to be dead, probably six seriously wounded, were killed and crop damage, estimated at more than \$2,000,000, and 200 families driven from their homes, was the toll of the electric storm which swept northern Ohio last Tuesday.

NEW TIME TABLE

FOR C. P. R. TRAINS.
The following is the new time table of the C. P. R. which goes into effect on June 1st, giving a list of the time trains are going here after that date:

GOING WEST.

No. 2 leaves Redcliff 1:30 p. m.
No. 13 leaves Redcliff 10:25 p. m.

GOING EAST.

No. 4 leaves Redcliff 8:30 p. m.
No. 14 (bag) leaves Redcliff 4:40 a. m.
This is a railroad time, which means that anyone wishing to take a train should be at the depot one hour earlier.

ITEMS OF LOCAL INTEREST

R. H. Stoner left last evening for Medicine Hat on business.

Mrs. E. L. Stone is spending this week in Maple Creek visiting her parents.

Miss Nighit, of Medicine Hat, spent last week end in town, the guest of Mrs. E. Wallis.

Mr. Geo. Lydall, manager of the glass plant here, returned home yesterday, after a ten days business trip to Montreal.

I. Kitchin, has moved to Medicine Hat where he has secured a position with the provincial government in their telephone system.

WANTED—Two or three roomed cottage; must be in fair state of repair; one can be rented. Apply to Fred Odlin, Broadway Furniture Store.

Rumor now has it that Alberta's premier, Hon. Charles Stewart, will resign as head of the provincial government and join the new U. P. A. political party in the west.

The superintendent, teachers and scholars of the Presbyterian Sunday school, desire hereby to express their gratitude to all those who assisted in making their picnic such a success by the loan of autos.

The G. W. V. A. will hold annual of their regular dances on their platform in the park next Friday evening, Aug. 8th. Good music is assured and refreshments will be served. Every body welcome.

Clarence Baker, of the Box Springs district, has returned from overseas and is now at his home. Joe Lapoint, of the same district, has also returned to Canada and is at present in to Montreal. He intends to come west this fall.

Veterans, please note that the Ladies' Auxiliary to the G. W. V. A. extend an invitation to all returned soldiers to be present at a banquet and social evening to be given in their honor in the club rooms on Thursday, August 14th. Supper to be served at 7 p. m.

W. T. Oakes had a thrilling experience last Tuesday evening which he will not soon forget and which will likely dampen his ardor for the canine tribe. He was walking down the lane which passes at the rear of the Rempus theatre when a vicious black bull terrier rushed out and tackled him. Bill's cries for help did not lessen the dog's desire to test the quality of his new trousers and for a few seconds it looked as though the dog would get the best of it. Bill used his feet to good advantage but the second of guard put him on his back and he was not slow to take advantage of it. As a result Mr. Oakes is minus one trouser leg. The affair was no joke, and shows that some steps should be taken to prevent vicious dogs from being at large.

Quite a number of Redcliff returned men are taking in the reunion in Medicine Hat today.

Mr. Edgett, of Lethbridge, a member of the firm of Stoner & Edgett, was in town last Tuesday on business.

HARRIS—In Redcliff, on Friday, August 16, 1919, to Mr. and Mrs. L. Harris, a son.

TO RENT—A good furnished suite, apply to G. T. Hall, Doug store.

Mr. and Mrs. Geo. Doley and Miss Williams leave today for Vancouver, where they will visit friends for a few weeks.

According to the bill of the Alberta Tax Association there is one lawyer in this province for every seventy-five inhabitants.

Mrs. Harcourt returned home last Saturday, after spending two months in British Columbia visiting friends. Mrs. Harcourt's mother accompanied her and will visit here for a short time.

W. H. H. of this town, was run down by an auto in Medicine Hat last evening and was quite badly hurt. His bones were broken, however, and it is expected that he will be around again in a few days.

Everyone in town should turn out to see the football match tomorrow (Friday) evening. It is given under the auspices of the Civic Improvement League and the collection to be taken up goes to that association to help provide a fund for supplying some outstanding needs in town.

The annual picnic in connection with the Presbyterian Sunday school was held last Monday afternoon in Harpburg's park. Medicine Hat children met at the church and were taken to the picnic grounds by auto. As this is an ideal spot for such an outing the children spent a most enjoyable afternoon.

It was no doubt due to the sudden change in the weather and the threatening appearance last Tuesday evening that the dance on the G. W. V. A. platform, under the auspices of the Alter Society of the Catholic church, was not so well patronized as usual. However, those who were present had a most enjoyable evening.

Trading in wheat futures was stopped on the Winnipeg Grain Exchange, at the instance of Sir George Post, because such trading would be inconsistent with the government's reported policy of handling the wheat crop through a government grain commission, paying a guaranteed price on the basis of \$1.75 a bushel for No. 1.

A meeting of the Civic Improvement League will be held at the home of Mrs. R. H. Stoner, Fifth street, on Wednesday afternoon next, Aug. 13th at 8 o'clock. As matters of importance will be up for discussion at this meeting it is urgently requested that there be a full attendance. All ladies who are interested in the welfare of the town, whether they are present members of the league or not, are asked to consider this a personal invitation to be present at this meeting.

Most of the Review staff took in the banquet in Medicine Hat given by the Typographical Union last Monday evening. The affair was in honor of W. Barrett and J. W. Hays, vice-president and secretary-treasurer respectively of the International Typographical Union, who are touring western Canada in the interests of the union. Both these gentlemen were in Redcliff last Tuesday morning accompanied by Alderman McLarty and B. W. Holman. They visited the several industries and were greatly impressed with Redcliff development and future prospects.

Special, this week, men's dress pants, \$2.98, at the Hicks Trading Co.

The St. Ambrose Sunday school will hold their annual picnic on the church grounds this afternoon and evening.

There will be a football game Friday night in aid of the Civic Improvement League. A silver collection will be taken up.

C. V. Gibson left for his farm last Monday night. He expects to get home in a few days.

Burgins, everybody it comes and leather shoes, at the Hicks Trading Co.

A gang of Dominion government officials are camped near the station here. They are engaged in taking the different attention along the line of the C. P. R. for government purposes.

Canadian silver coins are now worth eight cents less than a dollar. Notices were posted in banks and business houses in Buffalo fixing a discount of one cent on a dollar, two cents on a quarter and four cents on a half dollar.

The heavy rains last Sunday evening and through the night will make a big improvement in feed conditions around this district. Already the prairie is showing renewed life and the crops are now holding out encouraging prospects.

Sir Henry Drayton, who has been chairman of the railway commission for some time, has been sworn in as minister of finance for Canada, to succeed Sir Thomas White. Dr. A. F. Tulloch, Victoria, has also accepted the appointment of minister of agriculture to succeed Mr. Crerar.

Redcliff footballers go to Medicine Hat next Tuesday, the 12th, to play the Vets in the cup series. If nothing unforeseen happens Redcliff will have one of the strongest line-ups this season for this game. As a number of Redcliff fans are expected to go the game all car owners who can be requested to meet at Mac's Pool room at 6:30.

Plain speaking on the part of delegates regarding assistance and action for further irrigation extension in Alberta and Saskatchewan was heard at yesterday's session of the irrigation convention held in Medicine Hat, and several resolutions along these lines were discussed and unanimously carried. Every town in southern Alberta except Redcliff was represented at this convention and all put in their plan for irrigation development in their respective districts.

The contemplated flight across the Rocky Mountains to Calgary will not be made by Captain E. C. Roy, as expected. The attempt has been postponed for the present.

Western Rye

Grass For Hay

One of the biggest problems confronting the farmers on the open plains in the dry farming sections is that of providing hay for their stock and other live stock. In many districts the greater part of the wild land has been either broken up or used for pasture and farmers are anxiously acquiring for some grass that will provide them with sufficient hay for the requirements. No grass has yet been found that will give good crops over a long period of years and for low season it is advisable to consider establishing some system of crop rotation and looking in the rotation some grass for hay and if necessary for pasture.

One of all the grasses tested on the Scott Experimental Station, western rye grass has proven to be one of the best, most drought resistant and most easily cultivated. From the standpoint of yields it is at the top of the list, averaging about ten tons per acre for the past three years. On the fields the yields were lighter and have in some seasons been as low as half a ton per acre and up to one and three-quarters. Nevertheless it has been found that western rye grass grown for hay or for the crop rotation has shown some profit and in addition, breaking up western rye grass seed cost less per acre than any summer fallow.

In sowing down it has been found that an increased yield can be secured in the first crop by sowing alone, but the second crop is dependent on the amount of moisture and not in the treatment in sowing down. Sowing in summer fallow land has given heavier yields than when sown after a grain crop but this difference is not as great as would be expected. Where the hayward manure has been turned under and grass grown in succeeding years the yield has been quite equal to where the grass has been sown in fallow land.

Judging from the various experiments with this grass, high yields, using from 10 to 12 lbs. of seed per acre is the most profitable. Mixing other grasses with western rye grass has up to the present decreased rather than increased the yields.

War Savings Stamps make saving easy and profitable.

NOTICE

No farmer shall offer for sale, or sell, within the limits of the Town of Redcliff, the meat of any animal unless he shall first have have same inspected and obtained a permit from the Local Board of Health, and no selling or offering for sale without the necessary permit is hereby prohibited.

THE LOCAL BOARD OF HEALTH, Redcliff.
